

Symphony Presto™ Fuse AB

Automate your AmiBroker (AFL) Signals with Presto™ Fuse AB

Presto Fuse AB is developed for efficiently automating AmiBroker based trading strategies. One can write strategies in AmiBroker using AFL and trade directly with an Exchange using Presto. Additionally, Presto™ enables such strategies to send custom execution orders like Stop-Loss, Profit-Targets, Trailing-SL., Multi Client codes etc. automatically

Main Features of Presto™ Fuse AB

- Automated Order placement from AmiBroker to Exchange
- Send AFL triggers as Market or Limit or Stop Limit order
- Add Quantity/Lot Size to the triggers for Automated Trading
- Customized trigger execution rules
- Complete order management through Presto Dashboard
- Enter Manual triggers for automated execution
- Trade in **Multiple Client Accounts** with Individual Risk Management

Benefits of Presto™ Fuse AB:

- View Positions, P&L
- Generate Reports
- View Market Data
- Bracket Orders (Stop-Loss, ProfitTaking)
- Square-off Positions with single click

4 Level execution of AB signals:

1. Send as Market Orders automatically
2. Send as Limit Orders & use Presto SmartExecutor for execution of limit Orders
3. Filter out non-efficient signals, Send SL,PT, TSL, Auto-Reverse orders, Multi Client etc with Presto JobEx
4. Develop your own custom execution Algo with our APIs

AMIBROKER
